Professional Books, Laurie Steding : Ten-Minute Math Mind-Stretchers (Grades 3-5) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ten-Minute Math Mind-Stretchers (Grades 3-5):

0 of 0 people found the following review helpful. Quick Problems and Activities to Reinforce Math SkillsBy Denise ZobelAnother teacher recommended this to me and I can't thank her enough!! I have a million post-it notes all over the book. The ideas are creative, cross-curriculum, hands-on and require little time. There are ideas for group, partner and teacher directed activities with reproducible worksheets! A wonderful supplement to any Math program.2 of 4 people found the following review helpful. Quick Problems and Activities to Reinforce Math SkillsBy Denise ZobelAnother teacher recommended this to me and I can't thank her enough!! I have a million post-it notes all over the book. The ideas are creative, cross-curriculum, hands-on and require little time. There are ideas for partner, group and teacher directed activities with reproducible worksheets! A wonderful supplement to any Math program.

Need a day starter? Need quick ideas for independent or group work? Here's just the resource. A rich compendium of quick, hands-on problems, projects, and activities some reproducible that challenge students to apply and extend their math skills. Includes geometry, fractions, multiplication and division, problem-solving, and more. Supports the NCTM guidelines.

About the Author A former elementary teacher, Lori is an educational writer with an interest in math, currently Lori tutors students in a variety of subject areas.
