Not worth itBy Yusef J. CroweSave your money. I have never played a tenchu game in which I needed a manual. If the point is to sneak around and kill people,

you don't need a guide. Here is a hint: Throw caltrops on the ground and wait for the bosses to step on them. when they jump on one foot, slice them up...repeat. It's probably not in the guide and that is all you need for every tenchu game.

BradyGames' Tenchu: Wrath of Heaven Official Strategy Guide provides a comprehensive walkthrough with detailed area maps. Expert mission strategy and tips for killer combo and jumping attacks. Exhaustive ninja weapon and tool lists. Multiplayer tactics to defeat opponents in the multiplayer missions. Game secrets and more revealed!
